Hien Nguyen

San Jose, CA | (669) 224-9430 | hienng2007@gmail.com | linkedin.com/in/hnguyen2007

Education

San Jose State University — San Jose, CA
Bachelor of Science in Computer Science — *Expected May 2029*

Honors: President's List, Amazon Future Engineer Scholarship **GPA:** 3.98/4.0

Relevant Coursework: Data Structures and Algorithms, Computer Systems, Object-Oriented Programming

Experience

Software Development Engineer Intern — Jun. 2026 – Aug. 2026
Amazon — *Seattle, WA*

- **Designed and implemented** a **full-stack** dashboard navigation feature using **React**, **Python RESTful APIs**, **AWS Lambda**, and **AWS CDK**, enabling **1,600+ users** to access **65,000+ reconciliations** across **12 months.**
- **Reduced** FX rate API requests by **12×** by designing a period-aware caching strategy with stale-data fallback, improving frontend responsiveness and reducing component load latency by **20%**.
- **Delivered** production-ready code with **100% line coverage** across newly developed **React** and **AWS Lambda** components by developing comprehensive frontend and backend unit tests.
- **Led** end-to-end feature delivery from architecture to production by authoring the technical design, shipping **20 pull requests** across **3 packages**, and delivering the feature in **8 weeks**.
- **Resolved 2 AWS CDK Infrastructure-as-Code deployment blockers** that prevented **AWS Lambda** version updates, restoring reliable automated pipeline deployments to promote changes to production.

Projects

GitHub Developer Analytics Dashboard | *React, FastAPI, GitHub REST APIs, Vercel*

- **Developed and deployed** a **full-stack** developer analytics dashboard using **React**, **FastAPI**, **GitHub REST API**, and **Vercel**, enabling analysis of **1,000+ GitHub repositories** through interactive repository, language, and contribution analytics.
- **Reduced** GitHub API requests by **20%** by implementing client-side caching and asynchronous data fetching, improving dashboard responsiveness and minimizing redundant network calls.
- **Designed** developer-focused interactive analytics dashboards with filtering, data visualizations, loading states, and error handling, improving usability across **5 dashboard views**.

AI Resume Review Platform | *React, FastAPI, OpenAI API*

- Developed an **AI-powered full-stack** application using **React, FastAPI**, and the **OpenAI API** that compares resumes against job descriptions, generates ATS match scores, identifies keyword gaps, and provides personalized resume feedback using **LLM-powered analysis**.
- **Reduced** manual resume review time by **50%** by automating document analysis through PDF parsing, keyword extraction, and **OpenAI LLM-powered recommendations**.
- **Built** a scalable **FastAPI** backend that extracts PDF content, orchestrates **OpenAI API** requests, and returns structured ATS feedback through **HTTP RESTful APIs**.

Technical Skills

Languages: Java, Python, HTML, CSS, JavaScript, TypeScript, SQL
Frameworks: React, FastAPI, Flask
Databases: PostgreSQL, Amazon OpenSearch Service
Cloud: AWS Lambda, API Gateway, AWS CDK, CloudFormation, CloudWatch
Developer Tools: Git, GitHub, Visual Studio Code, IntelliJ IDEA
